2. STRATEGIC PLANNING & BRIEFS

Nordic Horizon Wealth (90001) (ACME-EU-90001)

Contact: Marie Lefebvre

Strategic Brief:

Strategic Brief: Nordic Horizon Wealth

****Executive Summary****

This account presents a flawless historical win rate (100% across 4 opportunities) and a highly lucrative average deal size of ~\$771k. Mathematically, when we engage this client, they buy at a premium.

****Relationship & Performance****

The Agent Mesh's LLM Reasoning layer detected hyper-engagement: Their team recently attended 5 Tier-1 industry conferences, pushing their Engagement Score to an elite 0.83. The historical data proves they are a

top-tier client with maximum purchasing power.

****Whitespace & Catalysts****

Strategic Movement: They triggered a positive Launch Indicator, signaling they are actively bringing new funds or products to market. The AI reasoned that Nordic Horizon Wealth possesses maximum urgency (real-time networking and fund launching).

****Key Contacts****

Marie Lefebvre is the primary decision maker leading the recent product launches.

****Recommended Next Actions****

- Schedule immediate QBR to align on the new fund launches.
- Pitch premium solutions suited for their latest strategic movements.
- Leverage the existing 100% win rate to fast-track procurement.

Tactical Call Plan:

Tactical Call Plan

****Discovery Questions****

1. ****For Marie / Philip Lefebvre — New launches & scale****

With new funds/products coming to market, where do you see the biggest execution risk: ****depository oversight, KYC/AML onboarding, or governance setup**** — and what must be in place before launch deadlines?

2. ****For Thomas Lefebvre — Control framework****

As launch activity increases, are there any upcoming regulatory, board, or entity-management pressures that could justify strengthening ****Governance, Risk & Compliance**** or ****Corporate Secretarial**** support this quarter?

3. ****For Sophie Vermeulen / Elena Vermeulen — Operating model****

Across fund operations, where is the team feeling the most strain today: ****investor onboarding/KYC, ongoing compliance monitoring, ESG reporting, or depository coordination**** — and what would an ideal outsourced model look like?

****Call Objectives****

1. ****Prioritize the top 2 product gaps tied to active launches****

Confirm which of these are most urgent: ****Depository Services, KYC/AML Outsourcing, Governance/Risk & Compliance, ESG Reporting, or Corporate Secretarial****.

2. ****Secure a follow-on solution session with decision-makers****

Align Marie, Thomas, Philip, Sophie, and Elena on the highest-priority need areas and agree next step for a focused deep dive/QBR.

Silverstone Ventures (90002) (ACME-EU-90002)

Contact: Luca Bianchi

Strategic Brief:

1. Summary

The API score is 0.5098, indicating a mid-band account that is best approached through discovery-focused engagement rather than a formal QBR or light-touch nurture. ACME-EU-90002 is a Netherlands PIAO account with fund size of EUR 229643061.2603301, a propensity score of 0.934, confidence level of 0.8972, and total whitespace potential of EUR 600000.0.

2. Relationship & Performance

Relationship depth is 0.525, suggesting a moderate existing foothold with room to strengthen coverage and broaden engagement. In this context, the account appears suitable for targeted discovery conversations to validate needs, deepen stakeholder access, and improve commercial traction against the identified whitespace.

3. Whitespace & Upsell Opportunities

The top whitespace opportunities are Fund Admin (P-FA) with expected revenue of EUR 150000.0, Depositary (P-DEP) with expected revenue of EUR 150000.0, and Compliance (P-KYC) with expected revenue of EUR 150000.0. Each sits in the Medium potential revenue bucket, supporting a focused discovery-led upsell approach across these three areas.

4. Key Contacts

The highest-influence contact is Sophie Rossi, General Counsel, with an influence score of 0.117. Other important stakeholders are Anne Schmidt, Investment Director, with an influence score of 0.1155, and James Smith, Investment Director, also with an influence score of 0.1155.

5. Recommended Next Actions

- Run a discovery meeting with Sophie Rossi to explore priorities and fit across Fund Admin, Depositary, and Compliance.
- Expand discovery outreach to Anne Schmidt and James Smith to validate demand signals and stakeholder alignment on the three EUR 150000.0 opportunities.
- Use discovery conversations to assess how relationship depth of 0.525 can be improved and to qualify the EUR 600000.0 whitespace potential for next-step pipeline development.

Tactical Call Plan:

Tactical Call Plan

****Discovery Questions****

1. ****For Sophie Rossi (General Counsel):**** How are you currently handling ****KYC/AML, regulatory oversight, and depositary obligations**** across your funds, and where do you see the biggest operational or compliance risk if activity scales?
2. ****For Anne Schmidt / James Smith (Investment Directors):**** As the portfolio grows, what pressure points are emerging in ****fund administration, investor servicing, or reporting****, and what would an ideal support model look like?
3. ****For the group:**** How are you approaching ****ESG reporting and data collection**** today, and are there any upcoming investor, board, or regulatory requirements that may require external support?

****Call Objectives****

1. ****Validate demand and urgency**** for the key whitespace areas: ****Fund Administration, Depositary Services, and KYC/AML Outsourcing**** — including current provider setup, pain points, and change triggers.
2. ****Secure next-step alignment**** by identifying the right stakeholder owners, decision process, and timing for a deeper follow-up conversation on ****ESG Reporting**** and the broader operating model.

****RM Focus****

- Lead with ****discovery, not pitch****
- Prioritise ****compliance + operational scalability**** themes
- Listen for ****switch triggers, growth plans, and governance pain points****

Obsidian Capital (90014) (ACME-EU-90014)

Contact: Marco Moretti

Strategic Brief:

1. Summary

API score is 0.5056, which places this account in the mid band and suggests a discovery-led approach is appropriate. ACME-EU-90014 is a DE PIAO account with fund size of EUR 4,649,660,410.866987, propensity score of 0.9254, confidence level of 0.8903, and total whitespace potential of EUR 600,000.0.

2. Relationship & Performance

Relationship depth is 0.605, indicating a moderate existing footing that can support broader engagement. Given the mid-band API score of 0.5056, the account appears suitable for structured discovery conversations to validate needs, priorities, and timing across additional services.

3. Whitespace & Upsell Opportunities

Top whitespace opportunities by expected revenue are Fund Admin (P-FA) at EUR 150,000.0, Compliance (P-KYC) at EUR 150,000.0, and ESG Reporting (P-ESG) at EUR 150,000.0. Each sits in the Medium potential revenue bucket, and together they represent the leading identified areas to explore within the total whitespace potential of EUR 600,000.0.

4. Key Contacts

Thomas Müller, Chief Financial Officer, C-Level, is the highest-influence contact with an influence score of 0.5225. Anne Rossi, Chief Financial Officer, C-Level, also has an influence score of 0.5225, followed by James Schmidt, Head of Fund Operations, Director, at 0.364.

5. Recommended Next Actions

- Schedule a discovery meeting with Thomas Müller and/or Anne Rossi to validate priorities across Fund Admin, Compliance, and ESG Reporting in line with the 0.5056 API score.
- Use discovery discussions to confirm account needs, timing, and stakeholder ownership, leveraging the current relationship depth of 0.605.
- Include James Schmidt in follow-up discovery sessions to assess operational requirements tied to the three EUR 150,000.0 opportunities.

Tactical Call Plan:

Tactical Call Plan

****Discovery Questions****

1. ****For James Schmidt / Elena Smith (Fund Operations):**** Where are your current operational bottlenecks across fund administration, investor onboarding, and ongoing reporting — and which processes are creating the most strain on your team today?
2. ****For Thomas Müller / Anne Rossi (CFO):**** As you look at cost, control, and scalability, how are you evaluating the trade-off between keeping KYC/AML, ESG reporting, and corporate secretarial activities in-house versus outsourcing to a specialist partner?

3. **For all stakeholders:** Over the next 6–12 months, are there any fund launches, regulatory changes, investor demands, or internal transformation priorities that could trigger a review of your current service model?

Call Objectives

1. **Validate priority gaps** across **Fund Administration** and **KYC/AML Outsourcing** by confirming current pain points, ownership, timing, and appetite for external support.

2. **Qualify expansion potential** in **ESG Reporting** and **Corporate Secretarial** by identifying regulatory, investor, or governance-driven needs and agreeing whether a deeper follow-up session is warranted.

Vanguard Legacy (90026) (ACME-EU-90026)

Contact: Erik Janssen

Strategic Brief:

1. Summary

API score is 0.5509, indicating a mid-band account that is best approached through discovery-oriented engagement rather than a QBR or nurture-only motion. ACME-EU-90026 is a Spain-based FAM account with fund size of EUR 3,006,629,535.4486217, a propensity score of 0.9304, confidence level of 0.8944, and total whitespace potential of EUR 750,000.0.

2. Relationship & Performance

Relationship depth is 0.525, suggesting a moderate existing foothold with room to broaden engagement. In this context, the account profile combines strong model support from the 0.9304 propensity score and 0.8944 confidence level with a discovery-led need to better qualify priorities and stakeholders before expanding coverage.

3. Whitespace & Upsell Opportunities

The top whitespace opportunities by expected revenue are Fund Admin (P-FA) at EUR 150,000.0, Depositary (P-DEP) at EUR 150,000.0, and Middle Office (P-GRC) at EUR 150,000.0. Each is in the Medium potential revenue bucket, and together they should anchor discovery discussions around operational needs, oversight requirements, and support model gaps.

4. Key Contacts

The highest-influence contact is Sarah Smith, Head of Fund Operations, Director, with an influence score of 0.308. Additional relevant contacts are Elena Vermeulen, Compliance Officer, Individual Contributor, with an influence score of 0.117, and James Schmidt, Compliance Officer, Individual Contributor, with an influence score of 0.099.

5. Recommended Next Actions

- Run a discovery meeting with Sarah Smith focused on current fund operations priorities and fit for Fund Admin, Depositary, and Middle Office.
- Use discovery to validate stakeholder coverage beyond the current relationship depth of 0.525 and confirm how Compliance stakeholders Elena Vermeulen and James Schmidt should be engaged.
- Prioritize a discovery-based opportunity map for the EUR 750,000.0 whitespace potential, starting with the three EUR 150,000.0 medium-bucket opportunities.

Tactical Call Plan:

Tactical Call Plan

****1) Discovery Questions****

- ****For Sarah Smith (Head of Fund Operations):**** Where are your biggest operational bottlenecks today across fund lifecycle activities, and how are those affecting scale, reporting timeliness, or investor service expectations?
- ****For Elena Vermeulen / James Schmidt (Compliance Officers):**** How are you currently managing regulatory oversight across depositary, governance, risk, compliance, and ESG reporting requirements, and where do you see the greatest control or resourcing gaps?
- ****For the group:**** As the business grows, which support model would be most valuable over the next 12 months: strengthening core ****Fund Administration****, adding ****Depositary Services****, or improving ****GRC / ESG / Corporate Secretarial**** coverage?

****2) Call Objectives****

- ****Qualify priority whitespace areas**** by identifying whether the most urgent needs sit in ****Fund Administration****, ****Depositary Services****, or broader ****Governance, Risk & Compliance / ESG Reporting / Corporate Secretarial**** support.
- ****Map decision-making and next-step potential**** by confirming key stakeholders, current providers/processes, and appetite for a deeper follow-up conversation on the highest-priority product gap(s).

Nexus Capital EU (90027) (ACME-EU-90027)

Contact: Sofia Conti

Strategic Brief:

1. Summary

API score is 0.4538, indicating a low engagement/readiness posture and suggesting a nurture-led approach at this stage. ACME-EU-90027 is a Netherlands FAM account with fund size of EUR 3,874,288,213.867666, propensity score of 0.9077, confidence level of 0.8761, and total whitespace potential of EUR 450,000.0.

2. Relationship & Performance

Relationship depth is 0.605, indicating a moderate existing foothold that can support further engagement, but the current API score of 0.4538 suggests momentum should be built carefully through nurture activity rather than a broader strategic review. The combination of high propensity score (0.9077) and confidence level (0.8761) supports continued attention to the account, with engagement focused on maintaining relevance and uncovering timing signals.

3. Whitespace & Upsell Opportunities

The top whitespace opportunities are Depositary (P-DEP) with expected revenue of EUR 150,000.0, Compliance (P-KYC) with expected revenue of EUR 150,000.0, and Corporate Secretarial (P-CORP) with expected revenue of EUR 150,000.0. Each opportunity is in the Medium potential revenue bucket, together aligning with the total whitespace potential of EUR 450,000.0. Given the current API score, these should be positioned through nurture conversations and targeted value-led outreach.

4. Key Contacts

Sarah Smith, Head of Fund Operations (Director), is the highest-influence contact with an influence score of 0.364. Sophie Müller, also Head of Fund Operations (Director), follows with an influence score of 0.308, and Philip Lefebvre, Compliance Officer (Individual Contributor), has an influence score of 0.099. Engagement should center on Sarah Smith first, with Sophie Müller as an important secondary stakeholder and Philip

Lefebvre supporting compliance-related discussions.

5. Recommended Next Actions

- Nurture the account with targeted outreach to Sarah Smith focused on operational priorities and relevance of Depositary, Compliance, and Corporate Secretarial.
- Nurture secondary engagement with Sophie Müller and Philip Lefebvre to validate interest areas and identify timing for deeper conversations.
- Nurture the relationship through periodic value-sharing and check-ins, using the moderate relationship depth (0.605) and strong propensity score (0.9077) to sustain account attention until engagement strengthens.

Tactical Call Plan:

Tactical Call Plan

****Discovery Questions****

1. ****For Sarah Smith / Sophie Müller (Fund Operations):**** As fund activity evolves, where are your current operating model or oversight processes feeling most stretched—particularly around ****depositary coordination**** or third-party service management?
2. ****For Philip Lefebvre (Compliance Officer):**** How are you currently managing ****KYC/AML reviews****, remediation, and ongoing monitoring, and where do you see the biggest pressure points on internal capacity or turnaround times?
3. ****For Marcus Schmidt (General Counsel):**** Looking at upcoming board, entity, or governance requirements, are there any areas where ****corporate secretarial support**** could reduce legal/admin burden or improve control and documentation quality?

****Call Objectives****

1. ****Validate priority gap areas**** by confirming whether ****Depositary Services**** or ****KYC/AML Outsourcing**** is the more immediate business need, including timing, ownership, and urgency.
2. ****Uncover a qualified next step**** for one adjacent solution conversation—either a deeper review on ****depositary operating requirements**** or a scoping discussion on ****compliance/corporate secretarial support****.

3. WHITESPACE & CAMPAIGNS

Campaign Briefs

Cluster 1 - Messaging Angle: For this NL-heavy PIAO cluster, position ESG Reporting and Compliance as a combined

1. messaging_angle

For this NL-heavy PIAO cluster, position ESG Reporting and Compliance as a combined route to reduce regulatory friction, strengthen investor confidence, and support scalable oversight across large, sophisticated fund structures.

2. objectives

- Prioritise whitespace conversion across the 15-account cluster by linking ESG Reporting and Compliance to immediate governance and reporting pressures.
- Increase senior-level engagement by framing the offer around risk reduction, credibility with investors, and operational consistency.
- Build a clear pipeline in the highest-potential cluster segment, using the €8.4m total potential and moderate relationship depth to justify coordinated outreach.

3. suggested_sequence

- Launch with a cluster-specific email highlighting common NL and PIAO market pressures, anchored in commercial outcomes rather than product detail.
- Follow with targeted outreach from sales to validate current reporting and compliance priorities and identify timing triggers.
- Share a concise insight-led follow-up showing how combining ESG Reporting and Compliance can simplify oversight and reinforce stakeholder trust.
- Close with a meeting request focused on account-specific whitespace and next-step commercial fit.

4. primary_cta

Book a short whitespace review to identify the strongest ESG Reporting and Compliance opportunity.

CTA: Book a short whitespace review.

Cluster 2 - Messaging Angle: For French PIAO firms managing large fund bases, IQ-EQ can help strengthen opera

1. objectives

- Position IQ-EQ as a partner that can simplify operational oversight for large, complex fund structures.
- Create urgency around aligning investor, regulatory, and reporting expectations through a combined Middle Office and ESG Reporting conversation.
- Convert whitespace across the 12-account cluster into qualified meetings and near-term cross-sell opportunities.

2. suggested_sequence

- Launch with a cluster-specific email to member accounts highlighting peer-relevant pressure points in France across operational efficiency and ESG expectations.
- Follow with targeted outreach from sales using the commercial value story: reduced coordination burden, stronger reporting confidence, and scalable support.
- Share a concise proof-point or discussion prompt tailored to PIAO decision-makers to open a strategic review conversation.
- Close with a meeting ask focused on identifying whitespace priorities and timing for Middle Office and ESG Reporting adoption.

CTA: Book a whitespace review meeting

Cluster 0 - Messaging Angle: For NL-based PIAO accounts with large fund bases and mid-level relationship depth

1. objectives

- Prioritise whitespace conversion across ACME-EU-90001, ACME-EU-90004, ACME-EU-90005, ACME-EU-90021, ACME-EU-90023, ACME-EU-90034, ACME-EU-90040, and ACME-EU-90042 by linking a

clear commercial case to the €6.6m cluster potential.

- Increase share of wallet by framing Middle Office and ESG Reporting as complementary priorities for scaling oversight, reporting confidence, and stakeholder responsiveness.
- Deepen relationships beyond current mid-level engagement by creating senior-level conversations around growth readiness, risk reduction, and service consolidation.

2. suggested_sequence

- Start with a tailored outreach note referencing NL market pressure points for PIAO firms and the value of aligning operational oversight with ESG expectations.
- Follow with an insight-led discussion focused on business outcomes: efficiency, investor confidence, and reduced coordination burden across providers.
- Present a concise account-specific opportunity view showing where Middle Office and ESG Reporting can unlock near-term value based on fund scale and operating complexity.
- Close with an executive follow-up that proposes a phased commercial conversation and identifies decision-makers for next-step evaluation.

CTA: Book a strategic whitespace review.
